*****Vendor Contract*****

Hello Vendors and Sponsors!

Thanks for being a part of the 2020 Northwest String Summit! This year, we are again taking great strides to become a Zero-Waste event and in addition to our waste and recycling handling we are finally adding full industrial composting for food waste and all vendor table wares (EcoProducts)! Which means 90% of all of the waste produced at our event will be recycled, composted, or reused—only 10% will be treated like garbage. While it is an ambitious goal for the festival to be completely impact free, we believe that by working together and staying true to our values, we can work to keep the festival's impact as low as possible and continue to lessen our impact year after year. To make this initiative a reality, we need help from all of our vendors.

We want to make sure we are diverting as much waste away from the landfill as possible. In order to do that, we need to make sure that all products that the vendors are purchasing are 100% compostable, that means absolutely no plastic or Styrofoam! We are very excited to partner with Rexius composting of Eugene, OR who will be taking all our composting once we've collected and sorted. For composting to work at a festival, ALL foodservice packaging needs to be compostable (except for cans and bottles, which can easily be recycled). If even one vendor buys one case of cutlery that looks compostable but isn't (and there are a lot of these on the market), the whole load will be ruined for the composter because they will have bits of real plastic in their compost and the value of their product is reduced (or the whole load is ruined). No one wants to buy compost with plastic in it! Would you put that in your garden?

As you already have been informed, we have a partnership with the 100% green and compostable product manufacturer, Eco-Products, which means all products provided from our vendors MUST be ordered through Eco-

Products. We know that compostable products can be pricey, and that is why we are offering a pricing comparable to what you can get at a Costco, Cash & Carry or another competing outlet. The festival is working with Eco-Products to ensure vendors use the real deal. Everything on the NWSS Eco-Products portal is third-party certified compostable by the Biodegradable Products Institute.

[TBD](#)

Without strict enforcement, it is possible that food and beverage vendors could show up with their own packaging. And we understand why - Why go to a new website and pay more for stuff they already have? The answer is that if they don't, the festival's composting efforts are threatened. Unfortunately, even well-intentioned vendors will likely show up with non-compostable packaging. SO, it should be noted that we will be checking in with each food vendor to ensure that you all understand that this will be strictly enforced. We cannot allow any plastic or other non-compostable products to contaminate the whole load of compost materials.

If any vendor is caught undermining these efforts either deliberately or not, may be asked to cease sales. Any food vendor that contaminates the compost with Non-EcoProducts or truly compostable goods may be asked to leave and may not be asked to return subsequent years. We know this is tough language, but it is necessary to ensure that we have a successful go at these efforts. We appreciate that you all want to do your part in decreasing the waste in the world, too.

Here are a few more tricky items that we would like to make sure is NOT provided by our vendors:

- Plastic Water Bottles or ANY drinks in plastic bottles (juice, tea, etc.) ^{[[L]]}_{SEP}
- Straws (unless compostable or paper) ^{[[L]]}_{SEP}
- Coffee stirrers (unless compostable or wood) ^{[[L]]}_{SEP}
- Individual condiment packages (including ketchup, mustard, cream cheese and butter) ^{[[L]]}_{SEP}
- Juice *boxes* ^{[[L]]}_{SEP}

Finally, In an effort to ensure the best possible festival experience for patrons, volunteers, and vendors alike, the recycling crew is requesting that all vendors follow a few simple rules/guidelines:

- Do not move any recycling/waste stations. You cannot take our cans to your vending area.

- Recycling/waste stations are for patron use only. Do not fill our cans with recycling or waste from your vending area. There are trash dumpsters available in the vendor's area, please use them for waste only! It is always best to pack it out, but we will collect your neatly gathered recycling, including BROKEN DOWN cardboard in the mornings when we can roll our trucks through.
- Do not leave things beside the dumpsters upon leaving the site. No piles of unsightly cardboard or heavy bags of food waste (coffee grounds, etc.). We have had to use a forklift to handle such items in the past. Pack it out!
- Police your area for micro-trash upon leaving the site. Pick up cut zip-ties, coffee stirrers, food waste (even lemon wedges), etc. These items all have to be picked up by volunteers when left behind. Remember, if it's not a pine cone or a peacock feather, it probably doesn't belong there. Please, pack it out.
- Thank you for your cooperation and we look forward to seeing you all for another great festival at Horning's!

We greatly appreciate all of your help and cooperation in making this a Zero Waste event!! ^[1]_[SEP] If you have any questions, or can't find what you are looking for, please reach out to Kina or Marina, who will be leading the sustainability efforts for 2022.

NWSS Vendor Composting Agreement - please read and sign.

I, _____, understand and agree to all terms and conditions contained within this contract. I understand and agree that the greening and composting effort require that there be NO contamination of composting collection. I understand that these efforts require ALL food and/or beverage vendor at the Northwest String Summit to serve ONLY EcoProducts Greenstripe **compostable** wares at the event. Furthermore, I understand and agree to not bring or use any other tableware products brands. I understand and agree that vendors caught undermining these efforts either deliberately or not may be asked to cease sales and may be asked to leave and likely not return in the future.
